

FOUR NOW REMAIN TO FIGHT CLAIM

Memphis, Tenn., May 28.—Four Tennessee players, E. W. Dancy, Nashville, Miss Anne Watkins, Chattanooga; Mrs. F. G. Jones and Mrs. S. H. Phillips, Memphis, remained as contenders for Southern championship honors at the end of today's run of match play in the women's Southern golf championship.

In the semi-final to-morrow Mrs. Jones, the present title holder, will meet Miss Watkins, and Mrs. Daley will oppose Mrs. Phillips.

Mrs. Jones defeated Mrs. T. B. Paine, Atlanta, to-day, 6 up and 4 to play; Mrs. Daley won over her team-mate, Miss Jeanette Ackie, 5-4; Mrs. Phillips defeated Mrs. T. H. Seymour, Nashville, 5-3, and Mrs. J. D. Varnell, Knoxville, was eliminated by Miss Watkins.

Two Cross Boys Win.
New York, May 28.—It was Cross night at the St. Nicholas A. C. to-night, where Brother Leach and Phil were the principals in the star attraction. Leach won from Teddy Maloney, of Philadelphia, with plenty to spare, while Phil had a tough job taking the prisoners from Paddy Sullivan. Leach weighed in at 135 pounds less than his opponent. Maloney proved a fighter for punishment. Phil Cross slugged his way to victory over sixteen minutes and twenty-seven seconds of strenuous struggle on the mat.

Lurick Defeats Zhyzsko.
New York, May 28.—George Lurick was awarded the decision over Zhyzsko in a wrestling bout at Madison Square Garden to-night, when the latter fainted after sixteen minutes and twenty-seven seconds of strenuous struggle on the mat. The Polish champion was said to be suffering from the effects of a recent injury received at Montreal, and his weakened condition resulted in his collapse in the ring. Charley White was the referee, and a fair-sized crowd was on hand to witness the match.

Richmond Gun Club Amateurs Show Class

The Richmond Gun Club held its amateur shoot in spite of the bad weather, and a number of scatter gun artists were on the grounds to face the traps. A. Tinsley, who faced the traps for the first time, made the remarkable score of 23 breaks out of 30 shots.

Score	Shot at	Breaks
B. Moore	30	23
A. Denon	30	21
B. Bailey	30	20
Mr. Allport	30	16
Mr. Tinsley	30	23
Shelbourne	30	20
Dr. Freeman	30	25
Mr. Cooke	30	20
Kain	30	20
Mr. Brown	30	43
M. Eames	30	25
Mr. Hunter	30	27
Mr. Lyons	30	27
Mr. Collier	30	25
Mr. Sharp	30	16

AMUSEMENTS.

Academy—University College of Medicine commences its annual commencement exercises at the University College of Medicine for to-night the Lucille La Verne Company, in "Trilby."

Colonial—Vaudeville.
Orpheum—Tabloid Musical Comedy.
Little Theatre—Pictorial.

"Trilby" at the Bijou To-Night.
Because the Academy of Music long ago "booked" the commencement exercises of the University College of Medicine for to-night the Lucille La Verne Company moves the Bijou with "Trilby" for one performance only.

Miss La Verne announced yesterday that a special Memorial Day matinee will be given at the Academy to-morrow afternoon. The business this week has been unusually good, and there is indication that the house will be sold out for the holiday performance.

Take the C&O Shortest Quickest Best
To Norfolk and Seaside EVERY SUNDAY
3—Fast Trains—3
The Only Double-Track Line.

Leave Main Street Station
8:30 A. M., 9 A. M. and 12 noon.

ROUND \$1.50 TRIP

TO
NEWPORT NEWS, OLD POINT, BUCKROE, WILLOWBUSH BEACH, OCEAN VIEW, PORTSMOUTH, NORFOLK, CAPE HENRY AND VIRGINIA BEACH.

5:30 A. M. train, Seaside Special, makes no stops between Richmond and Old Point.
9 A. M. and 12 noon train stops at Newport News.

Norfolk and Virginia Beach tickets good only via Newport News Ocean View tickets good only via Old Point.
All trains connect at Old Point with steamer for Ocean View. Returning, C. & O. steamer leaves Norfolk 4 P. M. and 8 P. M. Passengers can leave Ocean View every hour until 7:30 P. M. connecting with fast trains leaving Old Point 4:25 and 8:30 P. M. giving ten hours at the seashore, three hours longer at Ocean View than via any other route. (Advertisement.)

DAWSON WILL NOT COMPETE IN RACE

Indianapolis, May 28.—Joe Dawson, winner of last year's 500-mile Memorial Day automobile contest here, will not drive in the race Friday. The especially constructed car showed a defect, due to shipping, under the gruelling workout Dawson gave the machine yesterday, and the driver announced late to-day that the car would be unable to start. This leaves twenty-eight entries in the race. Nine cars were on the track to-day. The remaining ten cars, eighteen having passed the tests will make the runs to-morrow.

The French cars arrived only yesterday and the drivers have had no time to become familiarized with the track or in which to loosen up their mounts. Rain on Monday also caused the postponement of elimination trials.

The remaining cars will be rushed through the elimination early to-morrow morning. It is hoped by the speedway officials, and the track may be closed during the afternoon to allow the necessary cleaning.

Kaufmann & Co. Plays Y. M. H. A.
Kaufmann & Co. will play its opening game to-morrow when the boys line-up against the Y. M. H. A. Fans who followed the work of this fast aggregation last year will get a big bunch of slugging surprises and fielding stunts. This season if Kaufmann & Co.'s measure up to the standard they have set thus far in their practice games. Here's the crop picked for to-morrow's line-up: W. J. Lyncham, shortstop; G. W. Zander, first base; A. W. Butler, third base; M. Zander, catcher; H. L. Schwartzberg, center field; E. J. Kaufmann, second base; A. Schrader, right field; G. Merritt, left field; L. Lislefeld, pitcher. Fritz Stierding, umpire. Memorial Day, May 29.

Lough Defeats Lafayette.

Easton, Pa., May 28.—Lough University defeated Lafayette in a dual track and field meet to-day by the score of 69 to 52.

JUDGE REFUSES TO ORDER REHEARING

Receivers of Big Vein Pocahontas Coal Company May Dispose of Property.

[Special to The Times-Dispatch.]
Lynchburg, Va., May 28.—By a decree entered to-day in the case of T. T. Rowell and others against the Big Vein Pocahontas Coal Company and the Colonial Trust Company, of Baltimore, against the estate of Judge Henry C. McDowell in the United States District Court this morning refused a rehearing of the case. The decree was entered in the case on April 10, a petition for rehearing having been filed by Mrs. Ollie Rowell, which was refused.

It is understood that the receivers of the case, acting under the decree of sale, are preparing to dispose of the property. Steps have been taken by the attorney for Mrs. Browning looking to an appeal from Judge McDowell's decree, and it is not probable that an effort will be made to have the contention reviewed by the United States Circuit Court of Appeals at Richmond.

Judge McDowell has not yet entered a decree upon the petition of the receivers in charge of the property, which is to be sold in which it is sought to enjoin persons from trespassing upon the property held for the court.

DR. THOS. H. BARNES IS CRITICALLY ILL

Suffolk, Va., May 28.—Dr. Thomas H. Barnes, critically ill at his home on West End, with but few visitors allowed to see him.

The tall "Sycamore of Nansemond" preserves his serenity and sweetness of temper, even in the face of great pain and discomfort, and thorough knowledge of his dangerous condition. His greatest trouble is that he is too weak to receive the many visitors who constantly call at the home to inquire for the beloved leader and statesman.

A night letter from the board of visitors of the Medical College of Virginia received yesterday brought forth from the ill man expressions of appreciation. It read: "Resolved, That the board of visitors of the Medical College of Virginia learns with great sorrow and regret of the illness of its beloved and honored chairman. It trusts he will speedily recover to health and preside over many more of its meetings.—J. R. McCauley."

Dr. Barnes celebrated his eighty-second birthday last Friday.

Many who remember him as the popular physician of the county, and many who have worked under him politically, for he has served the Democratic committees as chairman for years, have been among those anxiously awaiting news from him.

His excellent service as a member from Nansemond to the House of Delegates, where he served on some of the most important committees, will not soon be forgotten by his many friends.

He is a member of the board of visitors to William and Mary College, and was one of the delegates to the Constitutional Convention in 1901, being chairman of the committee on county government.

Punch on Jaw Killed McCarty

Sporting experts in New York are surprised at the result of the autopsy held on the body of the late Luther McCarty, the white heavyweight champion of the world, who was killed in the first round of his bout with Arthur Pelky, at Calgary, Alberta. After the examination the physicians concluded that McCarty's neck had been broken as the result of a sharp blow crashed against his jaw and causing his head to snap back with such violence as to cause a hemorrhage of the spine. Because of his massive build it was generally thought that McCarty could withstand untold punishment about the head and neck.

TRAGEDY IN DURHAM PROVES FATAL TO TWO

Man Resisting Arrest Shoots Police Officer, and He Also Is Instantly Killed.

[Special to The Times-Dispatch.]
Durham, N. C., May 28.—A fatal tragedy occurred here to-night between a man and a police officer, which resulted in the sudden killing of Felix Conklin and the almost instant death of a police officer.

Conklin, who had been separated from his wife for some time, for some cause known only to himself, at the time named above, called on his wife, who was temporarily staying with her brother, Walter Harris, on Broad Street, in the vicinity of the Watts Hospital, just outside of the city limits. Almost immediately upon meeting his wife he opened fire upon her and shot five times. She received one or two slight flesh wounds, and one ball went through the left ankle.

After the shooting, Conklin returned to his home in West Durham. The police were summoned, and Sergeant G. P. Cates, of the city force, and Lonnie Morgan, county deputy sheriff, went out to arrest Conklin. As they approached Conklin was sitting on his porch in a chair, with shoes off. He fired at the officers, striking Officer Cates in the left breast. Deputy Sheriff Morgan, in turn, shot Conklin, who was still in the chair, with the left arm on the arm of the chair. The ball went through his left arm, into the heart, killing him instantly.

Mrs. Conklin was carried to the hospital. It is thought at this time that she is not seriously wounded, but greatly shocked.

Officer Cates was carried to a hospital and died half an hour after reaching there.

The affair created great sensation in the city. Up to 12 o'clock to-night people were congregated about the street in squads discussing the sudden shocking affair, and the police sta-

MAY TAKE ACTION AGAINST "CURE"

Medical Men Declare Friedmann's Serum Dangerous to Human Life.

ACTUALLY AIDS DISEASE

Government Making Careful Investigation of Dr. Ruck's Treatment.

[Special to The Times-Dispatch.]

New York, May 28.—Medical men of nationwide repute, including representatives of city, State and national public health services, met this afternoon for the purpose of drafting a decisive plan of campaign to prevent the further inoculation of any tuberculosis sufferer with the Friedmann live germ vaccine.

The conference, which was secret, took place at the home of Dr. Herman Biggs, general medical officer of the health department. It was learned that a resolution will in all likelihood be introduced at a special meeting of the board of health to-morrow which will result in the immediately closing of the local Friedmann institute.

Voluntarily reports on the condition of Friedmann patients were read by Dr. Biggs and Dr. Charles B. Slade, per capita of the physicians. Dr. Slade reported that the Friedmann vaccine, far from being harmless, is positively dangerous in its present form. The physicians stated that in many cases the vaccine actually assisted the progression of the disease.

While the conference was going on another death of a Friedmann patient, the fifth so far, was brought to the attention of the physicians. This was that of Mrs. Rosie Horowitz, fifty-five years old, who died suddenly at her residence a week after being treated with the turtle germ vaccine at the Friedmann Institute.

May Have Found Cure.

Washington, May 28.—Government medical experts are all but convinced that the Friedmann vaccine, which cured Senator Kern, they have at last found not only a real cure for consumption, but also a vaccine which will immunize humanity against the most dreaded of diseases.

This remarkable claim is made by Dr. Ruck after many years' patient experimenting upon lower animals and human patients at Asheville, N. C. It is substantiated, government experts seem to think, by recent experiments upon tuberculosis and nontuberculosis children, in which the vaccine, given by C. A. Julian, of Thomsville, N. C., cured a child of that place, and after collaborating with Dr. Ruck in the latter's laboratory, experimented independently with the Ruck serum on the orphans under his care.

The result, as reported by Dr. Julian to the North Carolina Academy of Science, has astounded government experts and inspired extraordinary activity among them. One hundred and eleven of 112 children are declared to have been absolutely cured. In the case in which there was a failure, the child died of complications.

It is explained there were complications to account for it. Seven cases were in advanced stages where the destruction of lung tissues were found. All tests before and after vaccination showed, it is claimed, that the nontuberculosis patients were effectually immunized.

WOMAN LEAPS TO HER DEATH.

Jumps from Fourth Story of Rooming-House in Washington.

[Special to The Times-Dispatch.]
Alexandria, Va., May 28.—Mrs. Annie Herman, thirty-five years old, who leaped to her death at 4 o'clock this morning from the fourth story front window of a rooming-house at 101 Pennsylvania Avenue, Washington, had been living in Alexandria since September last. She had rooms at the residence of B. B. Smith, deputy city sergeant, 907 Cameron Street. It is stated that she came here for the purpose of establishing a residence in order to get a divorce. Mr. Smith said today he had not seen her since Sunday. The woman from her conservation indicated, he said, that she was weary of struggling with life's problems, once remarking she hardly thought life worth living. He also said she appeared to be of a nervous temperament.

It contains the several constituents of the tuberculosis germs in human in such proportions as have been found by Dr. Ruck through study and experiment to produce the highest attainable degree of immunity. The proportions of these ingredients, it is said, form the basis of Dr. Ruck's only claim to originality, so far as the formula of his remedy is concerned.

Dr. Ruck has devoted many years in an effort to perfect what he calls his blood serum as a preventative against tuberculosis. Through experiments upon lower animals, it is said, he has demonstrated that his serum will destroy any related bacteria that may afterward be encountered in the blood. Thus it operates both as a preventative and cure, it is claimed. It is further claimed that the immunity can be demonstrated by certain blood tests.

The claim that practically all of the 111 cures effected by Dr. Ruck were obtained by a single injection of the serum, which government experts all the more.

Despite the fact that Dr. Ruck has been using his serum with great success for several years, his claims are expressed in the most unassuming way, while Dr. Julian urges immediate extension of its application, saying he cannot conceive what additional proof its efficacy should be required.

Surgeon-General Stokes and Dr. Edward R. Stitt, medical inspector of the navy, who were sent to Asheville by Secretary of the Navy Daniels to in-

vestigate the remedy, both stated to-day that the results shown by Dr. Ruck and Dr. Julian alone seem thoroughly to justify their claims. The investigation by the Public Health Service is already well under way, and will not require more than two or three months, it was said to-day. The government is only waiting to see whether it can obtain the same laboratory results as Drs. Ruck and Julian did. If it does, it is not unlikely that steps will be taken as soon thereafter as possible to spread the serum, both as a cure and as a preventative.

MUST PAY TAXES ON AUTOMOBILES

State Licenses Will Be Used to Locate Machines Not Yet Assessed.

State licenses on automobiles will be used this year in assessing machines for taxation as personal property. Auditor C. Lee Moore is sending out letters to commissioners of the revenue all over the State. Each official receives a list of persons in his district who have obtained automobile licenses from the Secretary of the Commonwealth. Each license means a taxable machine, and every citizen who failed or forgot to list his car taxes will be made to comply with the law, the commissioners fixing the fair market value of the machine.

Further, this policy will secure double action. Commissioners of the revenue will know in many instances of men who own automobiles and have given them in for property taxation, but have neglected to get licenses. They are directed to report such instances, so that the Secretary of the Commonwealth can get in his work.

Auditor Moore's letter to the commissioners in part as follows: "Chapter 326, Acts 1910 (a copy of which you will find on pages 84-90, tax laws), requires license for every automobile, locomobile, etc., operated in this State. The license year begins January 1, 1913, and expires December 31, 1913. The Secretary of the Commonwealth, when the license tax is paid, furnishes a plate containing the figures 1913, which plate must be attached to the machine as evidence of the payment of the license tax. Any automobile or locomobile operated in your district without this plate is presumed to be without license and not to have paid the license tax required by law. Should the owner of such a machine, without this license plate, wish to communicate that fact to Hon. B. O. James, Secretary of the Commonwealth, Richmond, giving his name and post-office address of the owner or operator of the machine."

Automobile Catches Fire.

Automobile No. 1455, belonging to and driven by Dr. McGuire Newton, caught fire while being driven along Grace Street between Fifth and Sixth Streets this morning shortly after 2 o'clock. No being able to find a telephone in the neighborhood, the driver turned in a fire alarm from Seventh and Broad Streets. The blaze was extinguished before the engine arrived. It is believed that the automobile was only slightly damaged.

Scrivenor Also Ousted.

Attention has been called to the fact that the newspaper reports of the annual meeting of the Wednesday Club on Tuesday night failed to record the dropping of Arthur Scrivenor from the board of governors. Mr. Scrivenor is one of the few original members of the club, he has served as musical director, has sat on the board for years, and with only three others, is an honorary member of the organization. His friends say he was ousted out of sympathy with the present management.

Virginia Is Elected.

Culver, Ind., May 27.—Officers of the Association of Boys' Work Secretaries, selected to-day include Harry G. Hart, Nashville, and Harry Baker, Virginia, as members of the executive committee.

THROWING GUARDS ABOUT MARRIAGE

Chicago, May 28.—Strict nationwide enforcement of the publication of a marriage license before the marriage ceremony can be performed by an Episcopal pastor, was recommended to-day by the general convention of the Episcopal Church by unanimous vote of delegates to the Chicago diocesan convention. The Episcopal Church has been publishing before the engines arrived. It is aimed to make the publication obligatory in order to prevent elopements and "fly-by-night" marriages.

The convention also endorsed a bill, pending at Springfield, providing that two weeks must elapse between the application for marriage license and its issuance. Delegates were selected to the general convention.

One of Our Agents

Has sent us a four-cylinder 30-horse power five-passenger Touring Car of another make to sell for him. This car is in good condition, with top, speedometer, wind shield, lamps, and the body is good paint. Altogether a bargain. Come and see it. Very low price.
